

HOW TO USE THIS DRUG LIST

How to Use this Drug List

Drug names are listed alphabetically by drug class. Generic drugs are shown in **bold**, lower case letters. Brand drugs are shown with only the first letter Capitalized (example: **diazepam** is the generic form of Valium). Exception: Please refer to Diabetic Supplies

Only the most commonly used Tier 1, Tier 2 and Tier 3 drugs are noted on this Drug List. Additional information is available under the pharmacy link via the KPS Member Portal: *MyKPS* at www.kpshealthplans.com.

Generic drugs are Tier 1. Brand drugs are Tier 2 or Tier 3. You pay the lowest copay for Tier 1 drugs, higher copays for Tier 2 drugs and the highest copay for Tier 3 drugs. **Please refer to your Benefits Booklet to determine the copayments for your plan's prescription drug benefit.**

When available, Federal Drug Administration (FDA) approved generic equivalents are to be used in all situations. When a generic equivalent drug becomes available, the branded drug will automatically move to a higher Tier copay.

Certain drugs have edits in place where processing of the medication must follow additional steps before being authorized for coverage. The following key explains what each means:

PA (PRIOR AUTHORIZATION): Your doctor must call MedImpact to preauthorize these drugs.

QL (QUANTITY): The number of drugs provided per fill is limited based on FDA guidelines. Exceptions require prior authorization.

ST (STEP THERAPY): A generic drug or less expensive Tier 2 branded drug must be tried and fail before the requested brand drug is covered. Some edits require try/failure of two generics or Tier 2 branded drugs.

AG (AGE RESTRICTION): Some drugs are only covered for certain age groups.

SPECIALTY means the drug is not available at a retail pharmacy. These prescriptions must be prior authorized by your physician. Once approved, the drugs are mailed directly from the specialty pharmacy to your home. Please call BioScrip Customer Service at 1-877-842-5097 with any questions.

NOTE: This drug list is continually reviewed and revised. KPS reserves the right to update this list at any time. For the most up-to-date information about the drugs covered under your Prescription Drug Plan, visit our web site at www.kpshealthplans.com, or call KPS Customer Service.

Exclusions and Coverage Limitations

Your Prescription Drug Plan does **not** cover the following items. *This is not an all-inclusive list of coverage exclusions.* For a complete list please refer to your **Benefits Booklet**.

- Over-the-counter (OTC) (no prescription is required) medications or other items, unless specifically included as a benefit of your Plan.
- Over-the-counter nicotine smoking cessation products or aids. However, the prescription smoking cessation drugs and/or products included on this list are covered if your Plan includes Smoking Cessation benefits.
- Any prescription or over-the-counter drug or products used for cosmetic purposes.
- Drugs for the treatment of infertility and/or obesity.

- Drugs for the treatment of impotence, unless specifically included as a covered benefit under your plan.
- Experimental drugs.
- Drugs used in an experimental manner.
- Drugs not yet approved by the FDA.
- Injectable drugs, except for Insulin or as otherwise noted.
- Compounded Hormone Replacement Therapy drugs, which have not been approved by the FDA and that are not manufactured by a recognized drug company.

NOTE: All compounding drugs require prior authorization from MedImpact and must be obtained from a participating pharmacy.

No coverage is provided for the replacement of lost or stolen medication, unless approved by your physician. No coverage is provided if your doctor does not obtain prior authorization from MedImpact for those drugs that require authorization.

Network Pharmacy: You must have your prescription filled by a network pharmacy except in the case of accidental injury or medical emergency. Prescriptions for specialty injectables are only filled through BioScrip specialty pharmacy.

Diabetic Supplies: KPS offers the following diabetic agents under the pharmacy benefit: Glucometers listed in this Drug List are covered at no cost. Tests strips for these glucometers are covered under Tier 1. Other supplies such as insulin syringes, lancets and insulin are also covered, but may be covered under Tier 1 or Tier 2. Other glucometers and test strips that are not listed may be covered under the pharmacy benefit, but at the highest Tier 3 copay. Please note: Not all diabetic supplies are covered under the pharmacy benefit. All other diabetic supplies that are not listed are covered under the Diabetic Education, Equipment and Supplies benefit of your Health Contract with KPS.

Contraceptives: Over-the-counter contraceptive aids are not covered. Prescription contraceptives are covered under your prescription drug benefits. Contraceptives that can only be administered by your doctor (such as IUDs and Norplant implants) are covered under your medical benefits. Diaphragms obtained from your doctor are covered under your medical benefits. Diaphragms obtained from a network pharmacy are covered under your pharmacy benefits.

Maintenance Drugs and Supplies: You may obtain up to a 90-day supply of the following: Any drug on Tier 1, drugs on Tier 2 that are listed on the Maintenance Drug List. Tier 3 drugs are not covered as maintenance drugs. Refer to your **Benefits Booklet** as some plans allow a 90-day supply of any drug on any tier.

Off-Label Drugs: Off-label use means the prescribed use of a drug for indications other than those specified by the FDA-approved labeling. Off-label drugs are covered only if their use meets medical necessity guidelines and if such off-label use is designated as a covered use by the Pharmacy and Therapeutics Committee. All requests for off label drug usage require prior authorization by KPS.

For More Information:

For more information regarding your Prescription Drug Plan, or if you have questions, please visit our web site at www.kpshealthplans.com. You may also call KPS Customer Service or MedImpact Customer Service.

MAINTENANCE DRUG LIST

You may obtain up to a 90-day supply of any drug on Tier 1 (generics in lower case bold) or any drug on Tier 2 (uppercase) that are on this Maintenance Drug List. Tier 3 drugs are not covered as maintenance drugs. However, some plans do allow a 90-day supply of any drug on any tier. Please refer to your Benefits Booklet.

NOTE: Drugs provided by Specialty pharmacy are not covered as maintenance drugs and are only allowed at 31-days per fill, regardless if they are on this list.

Individual Drugs:

ACTONEL
allopurinol
colchicine
folic acid
glaucoma eye drops

Drug Classes:

Anti-Cholesterol
Anti-Hypertension - Cardiovascular
Anti-Parkinsonism
Anti-Rheumatics
Asthma Drugs
Hormone Replacement
Insulins
Oral Contraceptives
Steroids
Thyroid medications
